STRATEGIES FOR LIFE

melior
Positive Behaviour Support

**WE WORK WITH
PEOPLE AND
THEIR NETWORK
TO DEVELOP
STRATEGIES TO
MAKE LIFE BETTER.**

Positive Behaviour Support is a comprehensive approach that focuses on addressing the person's needs, their home environment and overall quality of life.

Our highly experienced and skilled practitioners are made up of psychologists and social workers.

We work with a broad range of professionals including occupations therapists and speech pathologists to ensure a holistic approach to client care.

Positive Behaviour Support is proven to work

The Melior approach

We work with people with disability, their family and their support team using a problem-solving approach.

Our experienced practitioners aim to understand why a person uses behaviours of concern to have their needs met.

Together, we develop strategies to change the social and physical environment to better meet a person's needs. We also teach people skills so that they can cope better with the challenges of daily life – so they can live the life they want to lead.

We can improve a person's quality of life and support them to participate more fully in their relationships, school, work, leisure activities and their community.

Because when people are happily engaged in doing things they like, with the people they like, they tend not to use behaviours of concern.

Who we work with

We work with adults and children who have highly complex behaviours of concern. Our practitioners support individuals and families living in the Perth metropolitan area.
